

Allan Hancock College Agriculture Program

As effective program promotion via industry partners, high school partners, news media, and social media occurs, enrollment and completion numbers continue to increase.

Anecdotally, while overall college enrollment is down significantly for Fall 2020, all agriculture courses enjoyed robust enrollment, even wait lists for many of our courses.

Agricultural Science (certificate and A.S.), Agricultural Plant Science (AS-T), Agricultural Business (AS-T)

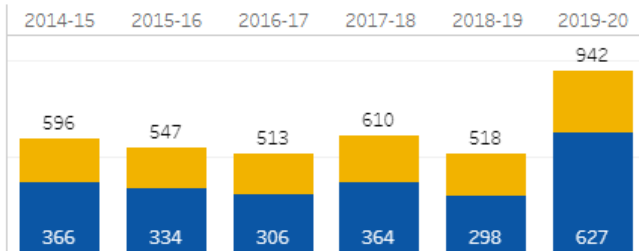

Credit Awards - Gold=Cert | Green=AA/AS/Pink=ADT

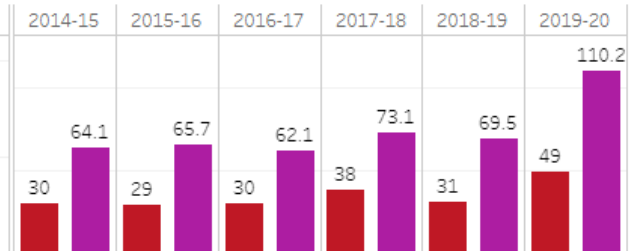

Program Efficiency Fall 2019
